

*Dear Friends,*

*I want to thank the lord, the Government and all the concerned authorities for finally clearing the Okhla Bird Sanctuary issue and revising the radius to 100 meters in three directions and 1.27 Kms in the fourth. **All** 3C projects fall beyond the sanctuary boundary now and in due course will be granted related permission by NOIDA authority. While we are waiting for the final notification which is expected in about 7 days, I just want to say one word "**Thank You**" to you for your extreme patience and encouragement which has been the main reason for us to go through such trying times since Oct '13 (since this bird sanctuary issue came up). I am quite certain by this dramatic change of event we will see a big surge and a positive sentiment for real estate in the NCR and especially in the NOIDA region. As you are aware that this was one of the main reasons which impacted the deliverables of 3C projects is now a thing of the past.*

*The time has come for us to move forward. I shall further be giving you an update once the notification is in order.*

Regards,

VB
